ANIMALS & WILDLIFE

special forces

6 × 52'/HD/2016

There's one aspect to Animal Armory we have yet to explore. Animal SPECIAL FORCES! What else can we call the phenomenal strength, the incredible swiftness and sharp senses that some creatures are born with? And why does Evolution grant one animal these powers, but not another?

survive the wild

6 × 52'/HD/2016

In this series we focus on the essential tactics and strategies that animals use to ensure their future amidst the chaos of nature, territory, communication, mating, attack, defence, every animal must plan for these moments. This series offers superb descriptions and lucid explanations of the different behaviours encountered in the animal world.

animal armory

6 × 52'/HD/2016

The lives of animals are not peaceful! They must be able to find food for themselves and their young and avoid becoming food themselves. Sometimes they must also compete with others of their own kind for food, territory, or mates. Traps, lures and lies are well-known tricks of men, but they are also skilfully employed by creatures in the animal kingdom. The creatures featured in this TV series demonstrate how resourceful and inspired nature can be to ensure survival in the animal world.

wild ones 3 - world of the wild

13 × 26'/HD/2016

A deeper journey into the crucial, fragile interdependence between animal life and the environment. Guided by the most up-to-date research we travel through jungles, forests, mountain ranges, deserts and oceans to discover animals, their habitats and the environment that sustains them. Their behavior, ability to develop, survive and adapt to a changing environment is evident.

changing seas

24 × 30'/HD/ 4 × 30'/SD/2011-2015

Series which takes viewers on exciting adventures to the heart of our blue planet, while joining scientific experts to learn how human activities are threatening the health of the seas and its inhabitants.

race of life

13 × 26'/HD/2015

It's a battle for survival, and the rush to stay one step ahead – a step that can be the difference between life and death. And as the sun rises, the race begins all over again – from the mightiest predators to the tiny creatures that teem underfoot. Each and every one of them has the instinct for survival. Each and every creature must run faster, and stay ahead of the game. If not, the consequences can be fatal. In the race of life, there are no prizes for coming second...
