Engineering, Architecture, Structural Design, Sculpture and Landscape Design are the sciences and arts men have mastered and applied to alter and improve their environment.

NEW

M.A.D. world: the cold war

8 × 52'/HD/2016

When nuclear weapons kept the entire world on the edge of M.A.D. – Mutually Assured Destruction! As Russia, China and the USA flex their military muscles on the global stage today, 'M.A.D. World' takes a close look at the last time we were threatened by the might of world superpowers: The Cold War. For over 40 years the entire world stood on the brink of annihilation, as the horrors of World War 2 ended and a new kind of global war began. When the push of a single button could trigger all out nuclear war. 'M.A.D. World' examines the how the world was changed forever by the Cold War. Over 8 episodes, remarkable archival footage shows how the build up of nuclear arms and the mistrust between West and East instilled terror across the globe. First-hand accounts bring the stories to life as we talk to pilots trained to drop the bomb, families rent in two by the Iron Curtain and escaped dissidents who lived in fear of torture and execution.

NEW

the new frontier

20 × 30'/HD/2015-2016

Due to world events over the last 20 years and the decline in government finance, space exploration has fallen from the media's gaze into the shadows. With the recent launch of the first privately owned space craft to service the international space station, it's time to take a fresh look at the new frontiers of space. What does the immediate future hold? *8 additional episodes available on request.*

NEW

bell rung

1 × 60'/HD/2015

A docu-series hosted by Dorsey Levens based on the insidious and often overlooked occurrence of brain injury and post concussive issues that pervade the seemingly innocuous activities of our children and our families including sports motions and injuries, deterioration due to aging, and the execution of military duties.
