ANIMALS & WILDLIFE

critical kingdom

6 x 60' / HD / 2018

Our planet is home to 8.7 million different kinds of life, and about 90 percent haven't even been named or catalogued. Many might never be: the Earth is in the midst of one of its greatest extinction events. The last one wiped out 75 percent of life on the planet. Scientists estimate we're losing dozens species every day to natural and human causes. Critical Kingdoms takes viewers on an urgent journey around the world to witness what's at stake and what is happening. Through captivating storytelling and eye-opening facts, Critical Kingdoms will inform, astonish, entertain – and get folks talking and tweeting.

orphan rescue

1 x 70' or 52' / HD / 2017

Tells the story of 5 orphaned baby Vervet monkeys rescued by a compassionate Monkey Sanctuary in South Africa and their continued fight to save their monkey habitat from destruction from the farming industry. An in-depth look at the all too common role humans and industry play in a struggling ecosystem.

animal special forces

6 x 48' or 10 x 24' / HD / 2017

yet to explore. Animal SPECIAL FORCES! What else can we call the phenomenal strength, the incredible swiftness and sharp senses that some creatures are born with? And why does Evolution grant one animal these powers, but not another?

survive the wild

6 x 52' / HD / 2016

In this series we focus on the essential tactics and strategies that animals use to ensure their future amidst the chaos of nature, territory, communication, mating, attack, defence, every animal must plan for these moments. This series offers superb descriptions and lucid explanations of the different behaviours encountered in the animal world.

animal armory

6 x 52' / HD / 2016

The lives of animals are not peaceful! They must be able to find food for themselves and their young and avoid becoming food themselves. Sometimes they must also compete with others of their own kind for food, territory, or mates. Traps, lures and lies are well-known tricks of men, but they are also skilfully employed by creatures in the animal kingdom. The creatures featured in this TV series demonstrate how resourceful and inspired nature can be to ensure survival in the animal world.

changing seas

24 x 30' / HD / 4 x 30' / SD / 2011-2015

Series which takes viewers on exciting adventures to the heart of our blue planet, while joining scientific experts to learn how human activities are threatening the health of the seas and its inhabitants.

ANIMALS & WILDLIFE

wild ones 3 – world of the wild

13 × 26'/HD/2016

A deeper journey into the crucial, fragile interdependence between animal life and the environment. Guided by the most up-to-date research we travel through jungles, forests, mountain ranges, deserts and oceans to discover animals, their habitats and the environment that sustains them. Their behavior, ability to develop, survive and adapt to a changing environment is evident.

race of life

13 × 26'/HD/2015

It's a battle for survival, and the rush to stay one step ahead – a step that can be the difference between life and death. And as the sun rises, the race begins all over again – from the mightiest predators to the tiny creatures that teem underfoot. Each and every one of them has the instinct for survival. Each and every creature must run faster, and stay ahead of the game. If not, the consequences can be fatal. In the race of life, there are no prizes for coming second...

wild ones

13 × 26'/HD/2014

This TV series finds inspiration in the rhythm of nature as shown through the wonders of the animal kingdom. It explores and explains different aspects of animal behavior, including hunting techniques and feeding habits, family relationships and defense mechanisms, and courtship and mating rituals.

super senses

13 × 26'/HD/2014

A magic journey through the animal kingdom. Unique footage capturing magic moments in the lives of the animals. This series explores behaviour traits, habits and lifestyles.
